CHRONOLOGICAL INDEX

■ Winter 2001 Vol. 113, No. 1

Title	Authors	Pg. #
Predicting the Number of Defects Remaining in Operational Software	P. J. Hartman, Ph.D., P.E.	23
EM Design Technology for Topside Antenna System Integration	J.W. Rockway, Ph.D., S.T. Li, Ph.D., L.C. Russell, C.W. Manry, Ph.D., J.B. McGee and J.H. Meloling, Ph.D.	33
Near-Term Organic Mine Countermeasures Ship (NMCM): Ship Conversion Feasibility Study	Lt. A.A. Rechel, USN, LCdr. J.J. G. Lavallée, CF, Lt. T.R. Gooding, USN, and Lt. Chrisospathis, HN	45
Study of Hull Angle Influence on SWATH Heave and Pitch Motions	R. Latorre, Ph.D., and J. Vasconsellos, Ph.D.	63
Open Systems Architecture: C4I Template	J. Madaio, B.J. Hillers and J. Vasilakos	71
Technologies and Sociotechnical Systems for Future Destroyers	Capt. E. Desclèves, French Navy, and Dr. L. Letot	81
Naval Research into the New Millennium — Pitfalls, Challenges, and Opportunities	S. Sacks, Ph.D.	89
Utilization of Root Cause Failure Analysis in the Investigation of Marine Deck Fitting Failures	D.S. Huff and K.M. Lynaugh	93
Engineering Duty Officers Dedicate Bronze Relief at the U.S. Navy Memorial	Capt. Keith Arterburn	101
Evolution of the Engineering Duty Officer in the United States Navy	Capt. Jerome J. Fee, USN (Ret.)	103

■ Spring 2001, Vol. 113, No. 2

Title	Authors	Pg. #
Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels	C. Baker, R. Krull, P.E., Capt. G. Snyder, USCG, W. Lincoln, P.E., and T.B Malone, Ph.D.	29
On Acquisition Reform, Risk and Structural Reliability	P.E. Hess, III, and J.E. Beach	45
System Performance Modeling in C4SIR/ Weapon System Design and Development	S. Froggett and S. Liu	55
RIB 2000 Database for Performance Improvement	R. Latorre, Ph.D., and Lt. A. Miller, USNR	65
Hull Material Evaluation for Navy 44 Sail Training Craft	Ens. M.H. Arvidson, USNR, and P.H. Miller, Ph.D.	71
Logistics in French Naval Programs	LCdr. Jacques Le Moigne	79
Defining the Future of the Navy in the New Century and at the Turn of the New Millennium	Stephen Sacks, Ph.D.	83
Naval Engineering Leadership	Capt. J.T. Arcano, Jr., USNR, Lt. L.O. Carl, USNR, LCdr. A.D. Nickens, USNR, Cdr. R.D. O'Toole, Jr., USNR, and Ens. P. Michael, USNR	87
At Sea Aboard the USS *Annapolis*	Cdr. E.D. Maissian, USNR (Ret.)	95

■ Summer 2001, Vol. 113, No. 3

Title	Authors	Pg. #
The Float-On/Float-Off Heavy Lift and Return Home of the USS *Cole*	Capt. R. Wasalaski, USNR, R. Anderson, Lt. S. Terhune, USN, and Capt. G. Grant, USNR	101
Technology Insertion in Today's Fleet/Force	S.L. Bales	131
Tech Solutions — Powered by Naval Research	L.S. Mastroianni and Cdr. M.D. Sonnefeld, USN	153
Salvaging of USS *La Moure County* (LST 1194) in Cinfuncho Bay, Chile	LCdr. G.W. Baumann, USN and M.S. Dean	163
The Battle of Nipe Bay, July 21, 1898 — Bahia de Nipe, Cuba	Cdr. E.D. Maissian, USNR (Ret.)	171
ASNE Day 2001	Various	21-97

■ Fall 2001, Vol. 113, No. 4

Title	Authors	Pg. #
T-AKE: Acquiring the Environmentally Sound Ship of the 21st Century	Cdr. Stephen P. Markle, USN, P.E., and Sean E. Gill	23
Features as an Abstraction for Designer Convenience in the Design of Ships	Joshua D. Summers, Douglas B. Maxwell, Christopher M. Camp, and Alley C. Butler	53
Technology Advances and Tanker Spill Prevention	Cdr. George Rodgers, USCGR (Ret.)	69
Beyond Electric Ship	Cdr. Stuart Young, RN, Cdr. John Newell, RN, and Cdr. Graeme Little, RN	79
Improved Thermal Cycle Offers Significant Improvements in Naval Gas Turbine Efficiency	Capt. James H. Patton, USN (Ret.)	93
David W. Taylor Naval Constructor, USN — His Reflections on Ship Protection — Are they Lessons for Today?	Ib S. Hansen and Dana M. Wegner	99
Passive Protection Versus Active Defenses	Ib S. Hansen	113

ALPHABETICAL INDEX

Author Name	Issue #	P. #	Title
Anderson, R.	3	101	The Float-On/Float-Off Heavy Lift and Return Home of the USS *Cole*
Arcano, J.T., Jr., Capt., USNR	2	87	Naval Engineering Leadership
Arterburn, Keith, Capt.	1	101	Engineering Duty Officers Dedicate Bronze Relief at the U.S. Navy Memorial
Arvidson, M.H., Ens., USNR	2	71	Hull Material Evaluation for Navy 44 Sail Training Craft
Baker, C.	2	29	Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels
Bales, S.L.	3	131	Technology Insertion in Today's Fleet/Force
Baumann, G.W., LCdr., USN	3	163	Salvaging of USS *La Moure County* (LST 1194) in Cinfuncho Bay, Chile
Butler, Alley C.	4	53	Features as an Abstraction for Designer Convenience in the Design of Ships
Beach, J.E.	2	45	On Acquisition Reform, Risk and Structural Reliability
Camp, Christopher M.	4	53	Features as an Abstraction for Designer Convenience in the Design of Ships
Carl, L.O., Lt., USNR	2	87	Naval Engineering Leadership
Chrisospathis, Lt., HN	1	45	Near-Term Organic Mine Countermeasures Ship (NMCM): Ship Conversion Feasibility Study
Dean, M.S.	3	163	Salvaging of USS *La Moure County* (LST 1194) in Cinfuncho Bay, Chile
Desclèves, E., Capt., French Navy	1	81	Technologies and Sociotechnical Systems for Future Destroyers
Fee, Jerome J., Capt., USN (Ret.)	1	103	Evolution of the Engineering Duty Officer in the United States Navy
Froggett, S.	2	55	System Performance Modeling in C4SIR/Weapon System Design and Development
Gill, Sean E.	4	23	T-AKE: Acquiring the Environmentally Sound Ship of the 21st Century
Gooding, T.R., Lt., USN	1	45	Near-Term Organic Mine Countermeasures Ship (NMCM): Ship Conversion Feasibility Study
Grant, G., Capt. USNR	3	101	The Float-On/Float-Off Heavy Lift and Return Home of the USS *Cole*
Hansen, Ib	4	99	David W. Taylor Naval Constructor, USN — His Reflections on Ship Protection — Are They Lessons for Today?
Hansen, Ib	4	113	Passive Protection Versus Active Defenses

ALPHABETICAL LISTING BY AUTHOR

	Author Name	Issue #	P. #	Title
	Hartman, P.J., Ph.D., P.E.	1	23	Predicting the Number of Defects Remaining in Operational Software
	Hess, P.E., III	2	45	On Acquisition Reform, Risk and Structural Reliability
	Hillers, B.J.	1	71	Open Systems Architecture: C4I Template
	Huff, D.S.	1	93	Utilization of Root Cause Failure Analysis in the Investigation of Marine Deck Fitting Failures
K	Krull, R., P.E.	3	29	Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels
L	Latorre, R., Ph.D.	1	63	Study of Hull Angle Influence on SWATH Heave and Pitch Motions
	Latorre, R., Ph.D.	2	65	RIB 2000 Database for Performance Improvement
	Lavallée, J.J.G., LCdr., CF	1	45	Near-Term Organic Mine Countermeasures Ship (NMCM): Ship Conversion Feasibility Study
	Le Moigne, Jacques, LCdr.	2	79	Logistics in French Naval Programs
	Letot, L., Dr.	1	81	Technologies and Sociotechnical Systems for Future Destroyers
	Li, S.T., Ph.D.	1	33	EM Design Technology for Topside Antenna System Integration
	Lincoln, W., P.E.	2	29	Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels
	Little, Graeme, Cdr., RN	4	79	Beyond Electric Ship
	Liu, S.	2	55	System Performance Modeling in C4SIR/Weapon System Design and Development
	Lynaugh, K.M.	1	93	Utilization of Root Cause Failure Analysis in the Investigation of Marine Deck Fitting Failures
M	Madaio, J.	1	71	Open Systems Architecture: C4I Template
	Maissian, E.D., Cdr., USNR (Ret.)	2	95	At Sea Aboard the USS *Annapolis*
	Maissian, E.D., Cdr., USNR (Ret.)	3	171	The Battle of Nipe Bay, July 21, 1898 — Bahia de Nipe, Cuba
	Malone, T.B., Ph.D.	2	29	Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels
	Manry, C.W., Ph.D.	1	33	EM Design Technology for Topside Antenna System Integration
	Markle, Stephen P., Cdr., USN, P.E.	4	23	T-AKE: Acquiring the Environmentally Sound Ship of the 21st Century
	Mastroianni, L.S.	3	153	Tech Solutions — Powered by Naval Research
	Maxwell, Douglas B.	4	53	Features as an Abstraction for Designer Convenience in the Design of Ships
	McGee, J.B.	1	33	EM Design Technology for Topside Antenna System Integration
	Meloling, J.H., Ph.D.	1	33	EM Design Technology for Topside Antenna System Integration

Author Name	Issue #	P. #	Title
Michael, P., Ens., USNR	2	87	Naval Engineering Leadership
Miller, A., Lt., USNR	2	65	RIB 2000 Database for Performance Improvement
Miller, P.H., Ph.D.	2	71	Hull Material Evaluation for Navy 44 Sail Training Craft
Newell, John, Cdr., RN	4	79	Beyond Electric Ship
Nickens, A.D., LCdr., USNR	2	87	Naval Engineering Leadership
O'Toole, Jr., R.D., Cdr., USNR	2	87	Naval Engineering Leadership
Patton, James H., Capt., USN, (Ret.)	4	93	Improved Thermal Cycles Offers Significant Improvements in Naval Gas Turbine Efficiency
Rechel, A.A., Lt., USN	1	45	Near-Term Organic Mine Countermeasures Ship (NMCM): Ship Conversion Feasibility Study
Rodgers, George, Cdr., USCGR, (Ret.)	4	69	Technology Advances and Tanker Spill Prevention
Rockway, J.W., Ph.D.	1	33	EM Design Technology for Topside Antenna System Integration
Russell, L.C.	1	33	EM Design Technology for Topside Antenna System Integration
Sacks, S., Ph.D.	1	89	Naval Research into the New Millenium — Pitfalls, Challenges, and Opportunities
Sacks, Stephen, Ph.D.	2	83	Defining the Future of the Navy in the New Century and at the Turn of the New Millenium
Sonnefeld, M.D., Cdr., USN	3	153	Tech Solutions — Powered by Naval Research
Snyder, G., Capt., USCG	2	29	Survey of Reduced Workload and Crewing Strategies for Ocean Patrol Vessels
Summers, Joshua D.	4	53	Features as an Abstraction for Designer Convenience in the Design of Ships
Terhune, S., Lt.	3	101	The Float-On/Float-Off Heavy Lift and Return Home of the USS *Cole*
Vasilakos, J.	1	71	Open Systems Architecture: C4I Template
Vasconsellos, J., Ph.D.	1	63	Study of Hull Angle Influence on SWATH Heave and Pitch Motions
Wasalaski, R., Capt., USNR	3	101	The Float-On/Float-Off Heavy Lift and Return Home of the USS *Cole*
Wegner, Dana M.	4	99	David W. Taylor Naval Constructor, USN — His Reflections on Ship Protection — Are They Lessons for Today?
Young, Stuart, Cdr., RN	4	79	Beyond Electric Ship
